

Fromm Named Authorized Service Provider by Rockwell Automation

Fromm is excited to announce that it has been named an *Authorized Service Provider* by Rockwell Automation.

This authorization enables our sales team to deliver valuable services that will help our customers improve operational productivity, worker safety and network connectivity.

Fromm's Rockwell Automation services include:

- Asset Performance Measurement
- Industrial Audits, Including Installed Base Evaluations
- Network Evaluation & Design
- Product Repair & Remanufacturing

Our automation specialists are ready and eager to help customers increase their profitability by harnessing the power of industry-leading resources.

Contact Josh Williams, Automation Products and Services Manager, to learn more about Rockwell Automation Services.
