

ROCKWELL AUTOMATION

PRODUCT REPAIR

MADE BY ANYONE, REPAIRED THROUGH ROCKWELL

Automation repairs are more than just the repair itself—understanding what was repaired and why provides critical information that, when applied properly, reduces the quantity of parts repaired year over year.

Rockwell Automation's industrial repair services are available to Fromm customers—and not just the ones using equipment manufactured by Rockwell. Rockwell Automation's efficient process is capable of meeting your repair needs quickly and conveniently, with comprehensive repair services for over 200,000 items from more than 7,000 manufacturers.

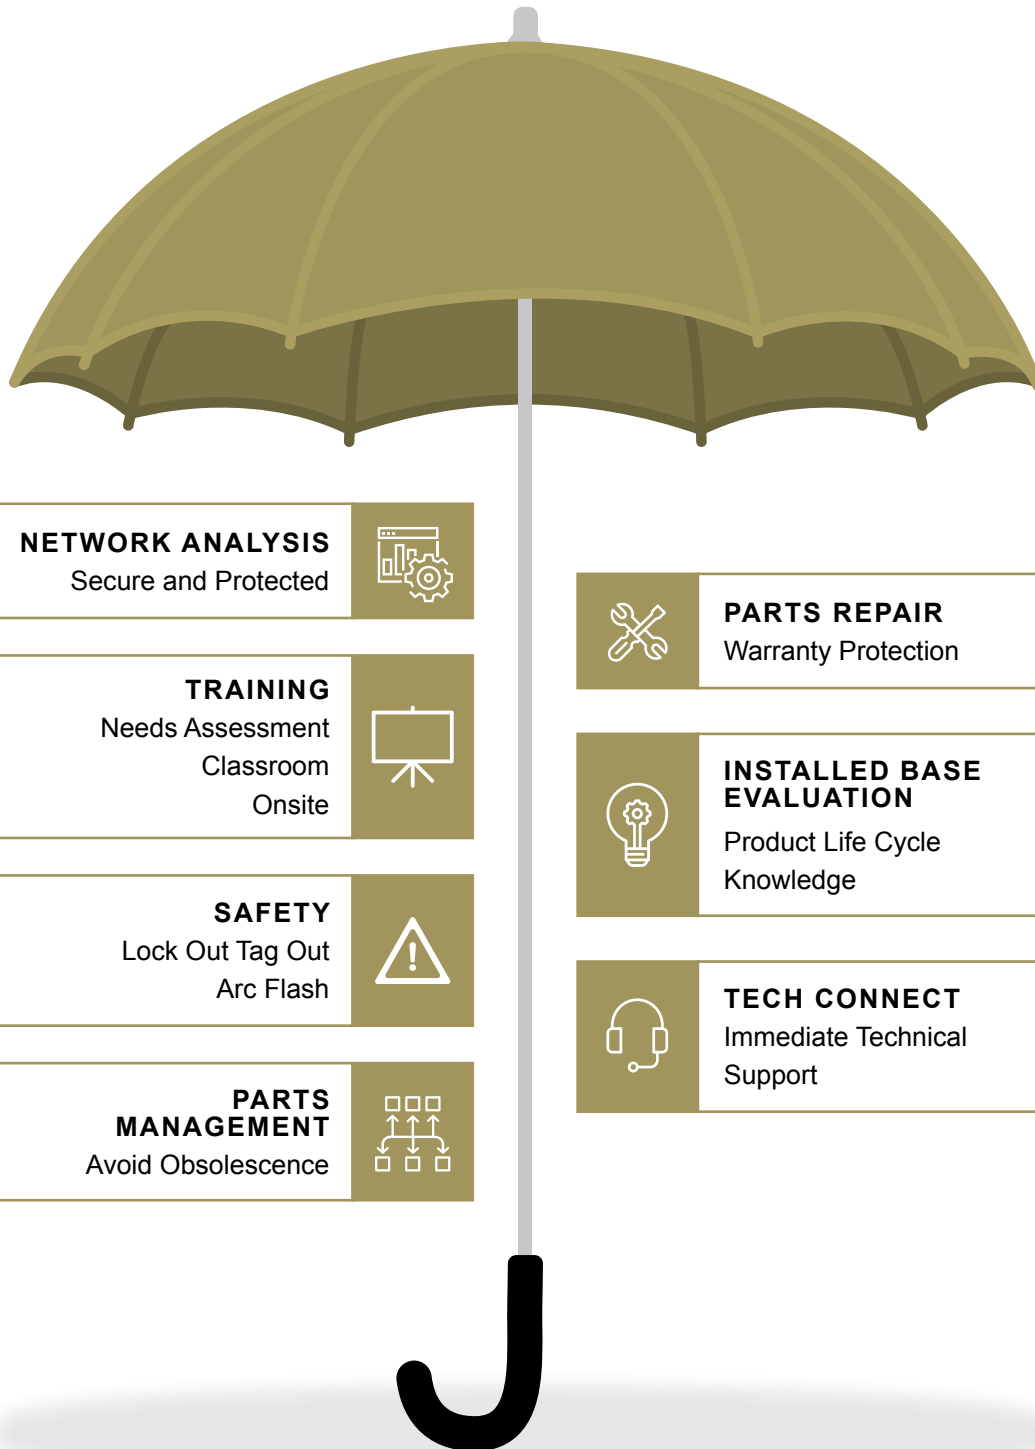

ROCKWELL AUTOMATION'S REPAIR TECHNICIANS:

- Work quickly to repair your equipment
- Use replacement parts that meet—or even exceed—the original design specifications
- Follow a stringent process to deliver high-quality repairs in Rockwell's ISO 9001-certified facilities
- Return your equipment to you as quickly as possible, so you can get your operation back up and running
